PROFESSIONAL EXPERIENCE

Amazon | Software Development Engineer

AmazonLink – Partner Onboarding & Experience (POE) Team | August 2024 – February 2025

- **Designed** and implemented new EDI workflow versions (Custom 1P and ASN v2) for the Unified Engagement & Onboarding platform, enabling 50-100+ vendors to optimize multi-hierarchical order processing and reduce manual effort
- **Led** white-glove onboarding of General Motors to Amazon's EDI system, creating Contivo XBM mappings, implementing and testing message flows, and configuring accounts/endpoints for a high-value Fortune 500 partnership
- **Won** Best End-to-End GenAI Integration award at SCOT org hackathon for building an AI agent with MCP integration that automates SEDI account creation and EDI workflow setup through conversational interface
- **Migrated** two production services to new localization dependencies, wrote 50+ integration tests, and modernized CI/CD pipelines, reducing developer setup time from hours to minutes and saving hundreds of engineering hours
- **Coordinated** cross-team migration of 10 services to updated localization framework as technical point of contact, ensuring on-time delivery through stakeholder communication and progress tracking
- **Served** as rotating Scrum Master and on-call engineer, triaging production issues and coordinating sprint planning and retrospectives
- **Achieved** highest annual performance rating on team; organized and hosted team events including Christmas party and white elephant exchange attended by senior leadership and VPs

Amazon | Software Development Engineering Intern

Direct Fulfillment – Inventory Team | May 2023 – August 2023

- Designed and implemented comprehensive ASIN deletion feature across DynamoDB and Elasticsearch, creating React/TypeScript UI and backend workflows that resolved data consistency issues affecting vendor operations
- Authored technical design document approved by senior engineers and presented solution to stakeholders at end-of-internship demo

EDUCATION

Illinois State University | Bachelor of Science in Computer Science

Graduated May 2024 | GPA: 3.94 (Summa Cum Laude) | Presidential Scholar | University Honors Program

- 2nd Place, State Farm-sponsored Mobile App Development Competition (Swift/Xcode, Spring 2023)

LEADERSHIP & ACTIVITIES

- Sigma Nu Fraternity – Scholarship Chair | Awarded Best Academic Program and Best Scholarship Chairman at IFC Awards (Spring 2024)

TECHNICAL SKILLS

Languages: Java, TypeScript/JavaScript, Python, SQL, Swift

Technologies & Frameworks: AWS (DynamoDB, Lambda, S3, CloudFormation, CDK, Agent Core), React, Node.js, Spring Boot, Bootstrap, Elasticsearch, EDI/SEDI platforms

Tools & Practices: Git, CI/CD pipelines, Agile methodologies, system design, API development, AI/LLM integration
